PREFACE

The current publication on Medical Certification of Causes of Death (MCCD) for the year 2019 in respect of Mizoram is the fifteenth in the series. The report in its present form is the output of data processed in software designed and supplied by the Office of the Registrar General, Ministry of Home Affairs, Government of India, New Delhi.

Data in the present report of MCCD are coded in accordance with the 10th Revision of International Classification of Diseases.

The report has been prepared exclusively on the basis of data on institutional deaths . In domiciliary cases MCCD is not reported, the readers of this report may bear in mind that this study is confined to 109 Hospitals / Institution which submit Monthly Returns on MCCD.

I would like to express my appreciation to Officers and Staff of the Registration of Birth & Death (RBD) Section of this Directorate for their untiring efforts in coding and processing of the data, Mission Director, National Health Mission, H&FW Department for financial and technical support and my gratitude to all the Medical Officers and staff of Health & Family Welfare Department, Govt. of Mizoram and Private Institutions/Hospitals for their contributions of monthly MCCD reports.

It is hoped that this report will serve as an useful tool for policy makers relating to health sectors, socio economic planners, health planners, researchers, scholars etc. Suggestions for further improvement of the report are welcomed.

Dated Aizawl,
The 21st July, 2020.

(Dr. LALRINCHHANA)
Addl. Chief Registrar of Births & Deaths
&
Director,

MCCD AT A GLANCE

Medical Certification of Cause of Death (MCCD) scheme was proposed by WHO as an imperative tool to obtain scientific and reliable information in terms of causes of mortality. The scheme formulated by office of the Registrar General, India is a big step towards establishment of a system in the country for obtaining data on cause of death. Reliable cause specific mortality statistics is required on a regular basis by Administrators, Policy Planners, Researchers and other Professionals for evidence based decision making with regard to resource allocation, monitoring of indicators, identifying the Priorities for programmes and other related activities in the area of Public Health. Keeping this in view, the Scheme of *Medical Certification of Cause of Death* was introduced in the Country under the provisions of Registration of Births and Deaths Act, 1969. Section 10 (2) of the Act empowers the State Government to enforce the provision relating to MCCD in specified areas taking into consideration the availability of medical facilities. Section 10 (3) of the Act provides for issuing a certificate of the cause of death by the medical practitioner who has attended on the deceased at the time of death.

The necessary data is collected in the Prescribed form designed by World Health Organization (WHO) and are supposed to be filled-up by the medical professionals attending to the deceased at the time of terminal illness. Thereafter, these forms are to be sent to the Office of the Addl. Chief Registrar for tabulation as per National List based on International Classification of Death (ICD 10). The State subsequently send it to the Office of the Registrar General, India, Ministry of Home affairs, Govt. of India.

The report on Medical Certification of Cause of Death 2019 is based upon 3,442 (2,125 Males and 1,317 Females) medically certified deaths supplied by 109 Government and Private Hospitals, UPHC,CHC,PHC. who submitted Monthly Returns on MCCD.
